

Our Team

OSC offers a team of highly skilled consultants and a large local network (with technical and geographical expertise), ready to be deployed at short notice.

We have experience anticipating and solving issues and supporting the realization of projects, even when in high risk environments, war zones, and natural disasters; both in remote and urban settings throughout the world.

Our team is made up of professionals who carefully tailor their work to each specific context and mission. Services are regularly provided in English, Spanish and French, as well as German, Portuguese, and Arabic.
